

Multiplication

The third grade curriculum has a focus on multiplication. Not only will students need to understand the concept of multiplication and know their facts, but they will also be required to apply those facts to new situations. For this reason, it is important for students to memorize their basic multiplication facts (3.OA.7). Please practice these facts at home—you can practice in the car, during commercials, at the breakfast table, etc. Just a few minutes each day can make a difference! Students can also practice multiplication on multiplication.com at home.

I have made a schedule of when your child should have mastered each set of facts. We will take a quiz on these dates.

Fact:	Date of Quiz:
0-1	<u>Friday, 11/30</u>
2 & 5	<u>Friday, 12/7</u>
3	<u>Friday, 12/14</u>
4	<u>Thursday, 12/20</u>
6	<u>Friday, 1/11</u>
7	<u>Friday, 1/18</u>
8	<u>Friday, 1/25</u>
9	<u>Friday, 2/1</u>
10	<u>Friday, 2/8</u>
11	<u>Friday, 2/15</u>
12	<u>Friday, 2/22</u>
Review all	<u>Friday, 3/1</u>
